The Ultimate Portman®.

THE REVOLUTIONARY

A decade of stagecraft distilled into a single, uncompromised fixture. **HEXY™** brings our hexagonal story full circle. Now our signature tungsten emulation is paired with deep RGB color mixing (**haloLED™ FC**) inside an IP65 weather-sealed 3D **HEXskin™** housing. By transforming the front grill into **SMESH™** - a dynamic 13-pixel light canvas - it gives LDs multi-layered kinetic freedom to turn darkness into pure emotion.

Wild Awakening from the Darkness.

THE PHANTOM

A haunting apparition forged in cold metal and ancient golden fire. **ZYAVA™** pairs the evolved tungsten punch of Portman's **haloLED™** core, enclosed in a skeletal ribcage reflector with the fluid, display-like motion of **surfGLOW™** backlight diffusion. It does not merely inhabit the stage: it absorbs the audience's gaze and casts an inescapable spell over every camera lens.

 **OMNIRAY™**

Lighting that goes
beyond illumination

THE ALCHEMIST

OMNIRAY™ doesn't just light a stage, it transforms it. By merging a massive wide-angle flood of colour with a lethal narrow beam, it performs the ultimate lighting fusion. No wizardry, just Portman doing its thing.

EVO ELEMENT™

P3 EVO™

THE STATEMENT

One oversized hexagon with three hearts beating as one. The definitive gaze. Distilling the Portman DNA into a single, high-intensity focal point that refuses to be ignored.

P1 EVO™

THE ICON

The main character with retro soul and modern versatility. A timeless hexagon that became the benchmark of the industry for the mid-ground scenography.

EVO ELEMENT™

THE SMALL SHAPESHIFTER

A 3-hexagon modular shape for high-density detail. Small but mighty. The building block of the EVO family, designed for intricate pixel-mapping and custom-shaped rigs.

P2 EVO™

THE SHAPESHIFTER

A modular, linear soul built to draw lines in light. The architect's favorite. Use its form to trace the edges of your vision or connect them to build massive, breathing structures.

EVO ELEMENT™

The **EVO series™** is the heartbeat of Portman® Lights. It's where our signature tungsten warmth (**haloLED™**) first met the vivid depth of RGBW. These aren't just fixtures; they are the icons that turned stage lighting into an art form.

THE BOND

E-CONN™

Snap into limitless geometry. The glue that makes the magic possible. A proprietary connection system that allows you to build a world on stage with zero boundaries.

The **TRIBAL** *Series*

A fusion of iconic tungsten (**haloLED™**) and hypnotic RGBW pulse written in rhythmic patterns. Build the tribe from total modularity of the full-scale **S-TRIBE™** and its compact counterpart **AMULET™**.

The sacred lighting language for the modern stage.

MANTIS™

The Predator

Sharp geometry with a lethal RGBW pulse and tungsten (**haloLED™**) strike. **MANTIS™** is the aesthetic rebel of the Portman® family. With three wings of the signature light circling a RGBW heart, it doesn't just inhabit the stage, it commands it.
